

L'Art Rue الشارع فن

INTERNSHIP Art and Education Assistant

L'Art Rue, a factory of artistic spaces stemming from the heart of the medina of Tunis, aims to democratize contemporary art by introducing artistic creations to people. Located in the heart of the Medina of Tunis, L'Art Rue designs and implements artistic and cultural projects with the inhabitants of the region through various activities:

1. Artistic residencies, which result, each two years, to the creation of an art festival in the city, Dream City.
2. Educational & artistic activities dedicated to children
3. Cooperation projects with several international cultural actors
4. Encounters, debates, round tables and cultural events

The integration of art in public schools and the development of the artistic skills for children have been at the heart of the goals of L'Art Rue since its creation. It is through the artistic vector that L'Art Rue works with children and their direct environment. This medium is considered a significant tool for deconstructing child violence. This is the reason why the association has developed its Art and Education programme over the last 15 years by working with children and their immediate environment. In this context, Art Rue is looking for an intern for the Art and Education Pole.

The missions

Artistic education workshops:

- Help with the organization and implementation of artistic workshops in the association's premises and in schools
- Assist artists & workshop supervisors in the coordination and follow-ups
- Ensure the necessary logistics for the workshops (reception, purchases, accompanying children, etc.)
- Help manage young volunteers and organize their intervention planning
- Accompany the assistants of the artists & workshop supervisors

Dream City:

- Help the organisation of the Kharbga City programme during Dream City festival (programme for young audiences)
- Accompanying children during the festival
- Help managing the Kharbga City volunteer team

Reporting and archiving:

- Ensure the daily reporting tasks : fill in the attendance lists, help with the the collection of data (narrative reports, evaluation and reporting of activities) as well as the adjustment and development of monitoring and evaluation tools
- Help with the archiving of different programmes
